RabbitJack's Casino

Recover RabbitJack's Stolen Treasure to Win Plus Hour Booty

CINDY STILWILL

Ahoy Maties! Captain RabbitJack's in a bind, and he needs your help!

He was transporting the beautiful Princess Mariana and her household on his ship when it was seized by a band of fierce pirates. They made off with the Princess, all her worldly possesions, ten Ladies-In-Waiting, and a chest full of Casino T-Shirts. The Princess' father is very angry, and if RabbitJack doesn't get the Princess and her belongings back, the King will have him beheaded!

Here's the plan:

Rumor has it that the pirates will be coming to the Casino to gamble away the loot. Casino players need to divide up into teams of four or five people and spread out through the Casino — then just casually saunter up to a table or slot machine, and keep your eyes open for an RJ Pirate. The pirates will be easy to spot, since the ruffians will be carrying the valuables in plain sight. The rascals might even be brazen enough to bring Princess Mariana or her ladies into the Casino!

If you win the round or hand that is in progress when an RJ Pirate enters the room, you can challenge him to a game for the loot or the lady. Simply roll your dice (//roll<RETURN>) and try to beat his roll for each item he is carrying. Other members of your team who are present can try to beat his roll, too. But if you try to win back more than one item and lose, the RJ Pirate will take back all the treasures you've won.

Each of Princess Mariana's treasures has a given point value — the Princess and her ladies, of course, are worth more! Once the pirates have left for good, the team with the most points will be honored at a banquet given by the king. And RabbitJack will personally give the team a reward of **50 free hours** to be split among its members. The second- and third-place teams will receive 20 and 15 hours, respectively.

Each team's treasure list will be posted daily in the Casino Club's Jolly Roger Times area. Anyone in possession of a Casino T-Shirt when the pirates give up will be allowed to keep it (Sorry, the women and jewels must be returned to the king).

Register your team by sending E-Mail to Captain RJ by Friday, November 3. You'll need the team name and screen names of all team participants to enlist. Sign up soon to help return the Princess to her father — and save RabbitJack's neck! You could end up being richly rewarded for your effort$!

Why waste your time at 1200 baud?

When you can do so much more at 2400?

Let's face it ... 2400 = 1200 x 2.

Big news, eh? Well have you stopped to think what that can mean for you?

Two times the work you can get done, or half the time you have to spend working. Or two times the fun you can have! How about half the money you owe Ma Bell? You don't have anything else to spend that money on, do you?

But wait, you say — connecting to on-line services at 2400 baud costs more than at 1200 baud, right? WRONG! On most services these days, 2400 baud costs just the same as 1200.

So just how should you go about moving up to 2400 baud? Why, with a SupraModem 2400™, of course. The SupraModem 2400 is completely Hayes compatible and works with your computer. And it's about half the price of those Big Name modems with exactly the same features!

Find out more before you waste more time and money!

Music Connection

Chat with Your Friends While You're In the Auditorium!

ROBIN ROSE

Cheer on your favorite Game Show contestant! Praise or insult the Forum speaker! Or just hush the guy sitting next to you! You can do all of this and more with the new Music Connection Auditorium enhancements, which allow you to chat with other Q-Link members in the People Connection Auditorium audience.

The newest version of Music Connection now gives you the ability to play a more active role while you're attending an informative Forum, an exciting Game Show or one of Q-Link's other Auditorium events.

"Now you've got the best of both worlds," says "RJScott," Communications Coordinator for Q-Link. "In the new 'CHATitorium,' you can attend quality events and also have the ability to chat with friends. It adds a new dimension to the Auditorium!"

If you haven't downloaded the* latest *version of the Music Connection software yet, you can do so in the Music Connection Center, located in Just For Fun and the Commodore Information Network.

This new function is simple to use. When you enter the Auditorium using Music Connection, you will be assigned to a numbered "chat group." You can talk to other members of your chat group (up to eight 'Linkers in all), even while the event is going on!

Your remarks will appear on the screen along with the hosts' and guests' remarks, but only you and the other 'Linkers in your chat group will see them. The number of your chat group will appear prior to your remark to differentiate between audience chat and the speakers onstage.

The new Auditorium functionality also lets you know the number of the highest-occupied chat group, list members of a particular conversational clique, move to another group and even turn the chat on and off, if you like!

Your Auditorium hosts can also allow a particular chat group's remarks to be seen by everyone in the Auditorium. That allows Auditorium hosts to be much more creative in planning new events, like allowing "teams" to participate in Q-Link's exciting game shows. Stop by the Auditorium to experience it for yourself! Download the latest version of the Music Connection software in the Music Connection Center, located in Just For Fun and the Commodore Information Network.

Omega-Q — Q-Link's ultimate utility program — has been redesigned and significantly improved to give you more control over the management of your disks than ever before. SPECIAL EVENTS, 'TOP BRASS' AWARDS HIGHLIGHT CELEBRATION

That's right — the bouncing baby online service born on November 1, 1985, is now a robust youngster that's celebrating the start of its fifth year!

And there's plenty to celebrate — the last few months have seen the debut of Club Caribe, Q-Link's long-awaited animated vacation resort; Music Connection, which allows members to play their favorite songs and sounds in People Connection; and the Library Search System, which lets downloaders easily find the software they're seeking.

Of course, one thing above all else accounts for Q-Link's continued success — **YOU,** the members, who provide the fun and friendship that make Q-Link so special.

This month, we're celebrating with outstanding anniversary events, and we're looking for some of Q-Link's most popular people to honor with our Top Brass Awards!

WIN 10 FREE HOURS AND SPECIAL RECOGNITION AS ONE OF OUR "TOP BRASS"

Who do you think is the friendliest Q-Linker? The cutest? The most unpredictable? Let us know, because we've brought back the popular Top Brass Awards for a third year to recognize some of Q-Link's favorite members. Vote for the friends and acquaintances online who really make Q-Link great — the craziest, the "most likely to get dumped," and the most flirtatious. The winners will all win 10 free Plus hours and achieve special status as a Top Brass Award recipient!

It's easy for you to register your vote: just visit the Top Brass Awards area in Just For Fun's QSociety. You may vote for as many 'Linkers as you like. The winners (two in each category) will be selected to receive the honor, based not just on the

MARSHALL RENS

number of votes received, but also on the reasons given by voters for nominating them. Winners will receive a special certificate commemorating "Top Brass" achievement, and be awarded TEN free Plus hours so they can bask in the adoration of their fans in People Connection!

The victors will be announced at the Top Brass Awards ceremony at 9 p.m. on Thursday, November 30 in the People Connection Auditorium, and will be honored afterwards at a glitzy party in the exclusive BRASS BAR room.

Campaign for your friends in People Connection! Or vote for yourself! Complete details are in Just For Fun's QSociety.

Don't miss this opportunity to help choose Q-Link's favorite members — you might find yourself among the winners!

Some lucky members will win vintage *Q-Link Updates* that go back to our earliest days of the service! And these special limited-edition *Updates* have been autographed by all your favorite Q-Link staffers. Join the fun when it kicks off in the Auditorium at 10 p.m. on Saturday, November 4, then moves to the FOURTH OF Q room for the big countdown.

Or relive the frightening days of **Bonnie's Kidnapping** in 1988. Look for reunion rooms every night in People Connection the week of November 12–18.

And keep an eye out for more special activities and contests from the **disABILITIES Club, Stars & Stripes, Issues in Mental Health, the Crossroads Cafe,** and others. We're going all out for the big anniversary to thank you for your support — be a part of the celebration!

GEOS HAS GO
BUT THIS OFFE

When is an upgrade not an upgrade? When you're upgrading to GEOS 2.0.™

Oh, sure, you've heard a lot of that upgrade stuff before. But GEOS 2.0 isn't just a couple of itsy bitsy enhancements here and there. It's more like 60 whole new options, utilities and applications (some of which were once sold separately) all rolled into one package.

29.95 Special upgrade offer.

The fact is, GEOS 2.0 is different. Really different. Even in the way it affects your wallet.

For a very limited time, we'll upgrade your GEOS 64 or 128—normally $59.95—for only $29.95 ($34.95 for GEOS 128). Which means that for a very few dollars, you can get a whole lot more out of the system that revolutionized the Commodore® world.

Sound good? Well, this ought to make it sound like music to your eyes:

Order your 2.0 upgrade with this coupon and we'll send you FontPack 1™—20 terrific typefaces of all shapes and sizes—for free. Zip. Nada.

Now is that an upgrade offer, or what?

Something to write home about.

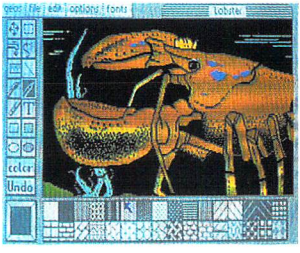
With new geoWrite™ 2.1 you can incorporate multiple column overlays, headlines and borders and instantly convert any Commodore based text (like PaperClip,™ Easy Script,™ Speed Script™ and Word Writer™) into a geoWrite format.

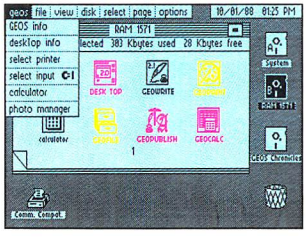
You also get 10 fonts (7 styles in multiple sizes). Date and time stamping. Expandable margins (to 8 inches). Right, left, center and full justification. Single, 1.5 and double spacing. Page numbering. Headers. Footers. Search and replace.

And that's only a *partial* list.

A new geoSpell™ automatically corrects any blunders it finds 38% faster than before. A new geoMerge™ combines with geoWrite to create customized letters and lists. And geoLaser™ prints near-typeset quality output on Apple® LaserWriters.™

Whew.





More graphic displays of power.

A new geoPaint™ still gives you 14 graphic tools, 32 brush shapes and 32 painting patterns. But now it can also enlarge or reduce images to scale. And new paint brushes let you create semi-transparent

R NEVER WILL.

overlay effects.

There's a new grid for easier sketching of large images. And for more perfect control, you can now stop pattern fills in progress.

The new 2.0 deskTop™ allows multiple file selection for most operations. And erases entire disks without reformatting. It manages more files, three disks and drives (even the 1581) in less time. Copies files faster with fewer disk swaps. And even color codes file icons for easier identification.

There are more keyboard shortcuts. More enhanced desk accessories. It can even retrieve your most recently deleted file from the waste basket!

Use Telenet for Fast, Reliable Communications

"JENNY C"

The local access number you use to dial Q-Link can be an important factor in how well our service works for you. You need reliability, speed, and consistency from an access network to make sure you get peak performance from the Q-Link interface. That's why we recommend that our members use Telenet to get the most from their connect time.

Our statistics show that the time it takes to use Q-Link services is generally shorter with Telenet. "Throughput" from our computers to yours is quicker, and when data is sent faster, your Q-Link interface works more efficiently. That means you can get in and out of the online services you use quickly, and you're less likely to encounter line noise that can interfere when you dial in or download software.

You stand to benefit from using a Telenet number in other ways, too. Telenet works faster between cities than other networks, so whether you're calling Q-Link from New York City or Plainfield, Wisconsin, you'll get through to us quicker. And because there are more Telenet numbers available throughout North America than with any other access network, you're more likely to have a Telenet number near you.

Use the handy Access Number Directory bound into this *Update* to find a Telenet number in your area. Performance is important, and shorter response time and clean transmission mean more money in your pocket. If you aren't already using Telenet, isn't it time you make the switch?

When you do, you'll thank Telenet. And your pocketbook will thank you.
